

FASTEST IN THE WORLD

Achieved at Denmark World Championship 1984.

THE SCHUMACHER "C" CAR

For ultra competitive $\frac{1}{12}$ racing

Available as fully ball-raced rolling chassis kit, or as basic conversion kit.

- *Wishbone independent front suspension.*
- *Anti-roll bar.*
- *Rear damper.*
- *Rugged fibreglass construction — pre-drilled and countersunk for low-drag profile.*
- *Adjustable ride height for peak handling and maximum range of tyre sizes.*
- *Independent rear power pod with computer machined aluminium motor mount for maximum heat dissipation, maintaining peak motor performance.*
- *Aluminium axle tube guarantees bearing alignment — machined to allow closest possible gear centres.*
- *High grade aluminium fastenings.*
