

Inside The

# Dual Sport

By *Race Car* International

As featured in July's Racing Lines, R.R.C. now takes a quick look at the latest arrival from Associated, the RC 10 Dual Sport. As no doubt a lot of you will recognise the World famous "tub" chassis, which the car is based around. The kit featured here is the Mercedes D.T.M. Featuring the following spec:- Tub Chassis, Bushing, Dual-Sport Stock Motor, Resistor Speed Controller, New Chassis Nose Piece, New Front Shock Mount, New Rear Shock Mount, New Short Wishbones Front and Rear, Front and Rear Anti Roll Bars World Championship Winning Stealth Transmission, Custom Racing Wheels, Proline On-Road Racing Tyres. Look-out for the in-depth review in a future edition of R.R.C.
