

FRONT END ASSEMBLY

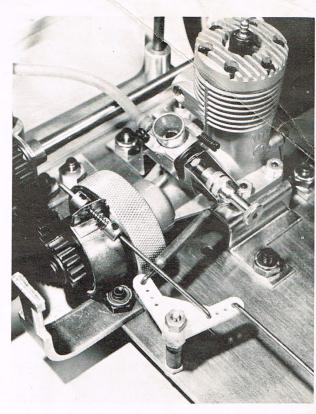

FUEL TANK INSTALLATION

COMPLETED CAR (less radio)

LINKAGE ASSEMBLY FOR STOCK VECO CARB & SELF-ENERGIZING TYPE BRAKE. Also shown is the four piece rear end/motor mount assembly used in the RC-2 kit.

LINKAGE ASSEMBLY FOR PERRY CARB & NON-SELF-ENERGIZING BRAKE ASSEMBLY. This is a better brake system but it requires a strong servo. The one-piece rear end/motor mount assembly as used in the RC-1 kit is shown. Also note the optional metal fuel tank with fuel filter and engine heat sink.
